

Dostop do epošte preko mobilnega telefona Android

Epošto lahko prebirate preko mobilnega telefona ali tabličnega računalnika z operacijskim sistemom Android. Za dostop do epošte se uporablja protokol IMAP. V nadaljevanju so prikazane nastavitve, ki jih je potrebno vpisati v odjemalec epošte. V nastavitvah vpišite podatke kot je prikazano na slikah.

Pri dostopanju do epošte iz poštnega odjemalca smo navedli primer za domeno mail.gigaspark.com. Ko vpisujete podatke za vašo domeno, prosimo vnesite vaše podatke in ime vaše domene.

Korak 1. V meniju izberite nastavitve za dodajanje računa Email.

Korak 2. Vpišite vaš elektronski naslov in geslo.

Account setup

Email account

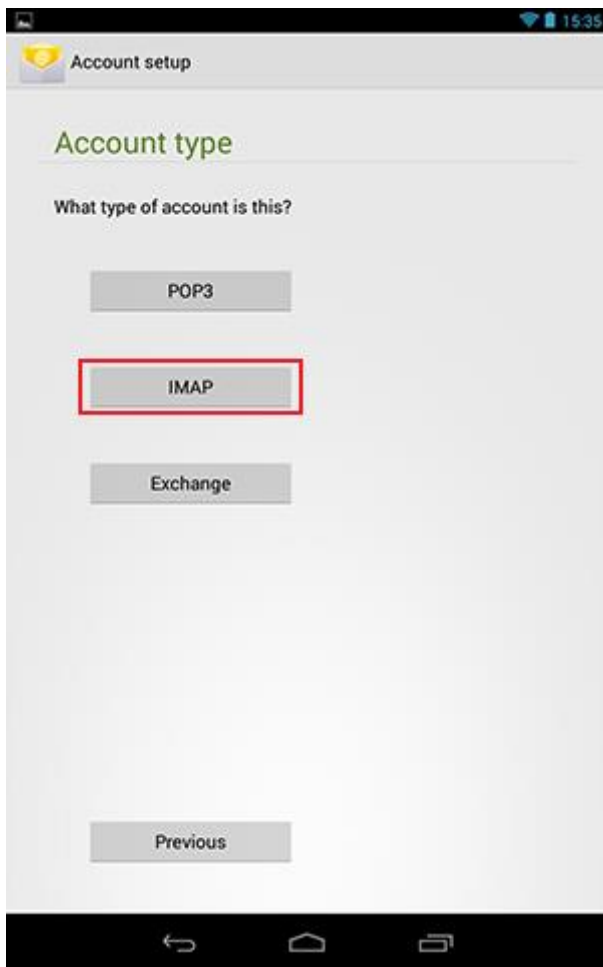

You can set up email for most accounts in just a few steps.

Email address

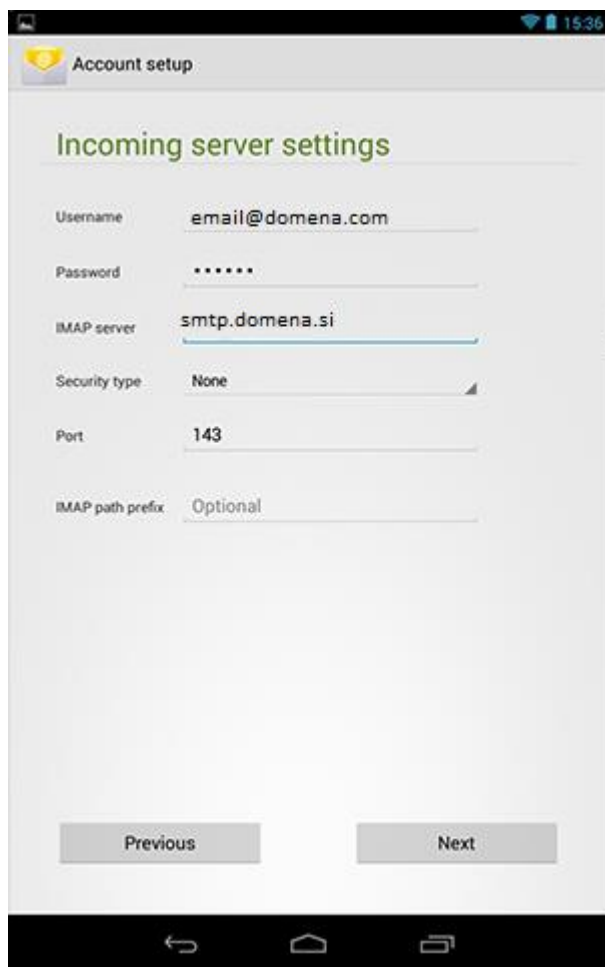

Password

Send email from this account by default.

Korak 3. Izberite način dostopa do elektronske pošte (priporočeno IMAP).

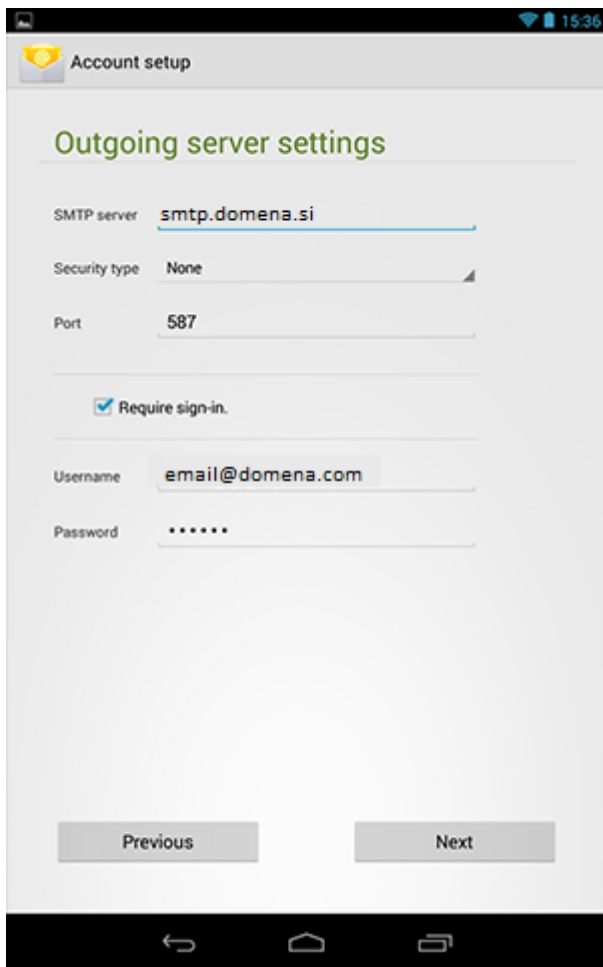

Korak 4. Vpišite uporabniško ime (elektronski naslov) in dohodni strežnik (mail.vasa-domena.com).

The screenshot shows an Android application interface for 'Account setup'. At the top, there is a status bar with a signal strength icon, a Wi-Fi icon, and the time '15:36'. Below the status bar is a header with a yellow shield icon and the text 'Account setup'. The main content area is titled 'Incoming server settings' in green. It contains several input fields: 'Username' with the value 'email@domena.com', 'Password' with six dots, 'IMAP server' with the value 'smtp.domena.si', 'Security type' with a dropdown menu set to 'None', 'Port' with the value '143', and 'IMAP path prefix' with the value 'Optional'. At the bottom of the form area, there are two buttons: 'Previous' on the left and 'Next' on the right. The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.

Korak 5. Vpišite odhodni strežnik in vrata 587. Obvezno izberite možnost Require sign-in.

The screenshot shows an Android application interface for account setup. At the top, there is a status bar with a Wi-Fi icon, a battery icon, and the time 15:36. Below the status bar is a header with a yellow envelope icon and the text "Account setup". The main content area is titled "Outgoing server settings" in green. It contains several input fields: "SMTP server" with the value "smtp.domena.si", "Security type" with a dropdown menu showing "None", and "Port" with the value "587". Below these fields is a checkbox labeled "Require sign-in." which is checked. Further down are fields for "Username" with the value "email@domena.com" and "Password" with six dots. At the bottom of the form are two buttons: "Previous" and "Next". The bottom of the screen shows the standard Android navigation bar with back, home, and recent apps icons.
