

## Kako izdelam e-poštne predale?

Prijavite se v kontrolno ploščo (če imate več domen, kliknite na željeno domeno) in kliknite na ikono 'Mail'.

The screenshot shows the Parallels Panel interface. At the top, there's a navigation bar with 'Mail' highlighted in red. Below it, the 'Websites & Domains' section is active. It displays information for a domain named 'domena.com', including its IP address (212.93.228.69) and FTP login (abn.si\_admin). A grid of icons provides access to various website management tools like 'Website Scripting and Security', 'PHP Settings', 'Web Server Settings', 'Launch Presence Builder', 'Applications', 'File Manager', 'Web Statistics', 'DNS Settings', 'Secure Your Sites', 'Password-Protected Directories', and 'Website Copying'. On the right side, there are panels for 'Resource Usage' (showing 100% disk space) and 'Featured Applications' (listing Drupal, WordPress, and Joomla).

Nato kliknite na ikono 'Add new mail name'. Odpre se vam stran, kjer lahko izdelate nove elektronske predale.

The screenshot shows the 'Mail' management page in the Parallels Panel. The 'Mail' tab is selected in the navigation bar. The page title is 'Mail'. Below the title, there's a description of email account management. A toolbar contains a 'Create Email Address' button, which is circled in red, along with 'Change Settings', 'Refresh Usage Stats', and 'Remove' buttons. Below the toolbar, a table lists existing email addresses:

Email address	User	Usage
<input type="checkbox"/> mail1_v1@domena.com (mail1@domena.com)		987 KB used of 200 MB
<input type="checkbox"/> mail2_v2@domena.com (mail2@domena.com)		0 B used of 200 MB

At the bottom, it indicates '2 items total' and provides pagination options: 'Number of entries per page: 10 25 100 All'.

## V novem oknu obvezno izpolnite naslednja polja:

Email address (to je vaš novi elektronski nalsov)

Password (to je geslo za dostop do vašega elektronskega predala)

Confirm password (ponovitev vašega gesla )

Označite polje Mailbox

The screenshot shows a web form titled "Create Email Address" with a navigation bar containing "General", "Forwarding", "Email Aliases", "Auto-Reply", and "Spam Filter". A note at the top states: "If this email account is associated with an auxiliary user (Access to the Control Panel is enabled), the changes you make on this page affect this user's settings. Particularly, if you change the email address and password, the auxiliary user's login and password will be changed to the new values as well." The form includes the following fields and options:

- Email address \***: A text input field containing "mail3" followed by "@domena.com".
- Access to the Control Panel** (username: mail3@domena.com)
- Password**: A text input field with masked characters, a "Strong" strength indicator, and a "(?)" help icon. Below it are "Generate" and "Show" buttons.
- Confirm password**: A text input field with masked characters.
- Mailbox**: A checked checkbox.
- Mailbox size options:  **Default size (200 MB)**,  **Another size** (with a text input and "MB" dropdown).

At the bottom, there is a note "\* Required fields" and "OK" and "Cancel" buttons.

- Dohodno pošto na elektronski nalsov lahko preusmerite na drug elektronski nalsov v zavihku Forwarding.
- Alias elektronskega naslova spremenite v zavihku Email Alias. Tu lahko dodate različne aliase za vaš elektronski naslov (npr: vaš elektronski naslov je [ime.priimek@vasadomena.com](mailto:ime.priimek@vasadomena.com), aliasi pa so lahko [ime@vasadomena.com](mailto:ime@vasadomena.com) , [priimek@vasadomena.com](mailto:priimek@vasadomena.com), [XX@vasadomena.com](mailto:XX@vasadomena.com)...
- V zavihku Auto-Replay lahko nastavite avtomatični odgovor v primeru vaše odstotnosti
- V Spam Filter zavhku pa lahko nasatvite različne možnosti zaščite za nezaželjeno pošto.
